

Kickstart Education

The school have teamed up with Kickstart Education, a local social enterprise to offer a fantastic community project open to all families who attend Westwood Park. Every Wednesday after school from 3pm until 4.30pm, Kickstart Education work with Mrs Kiernan to host inter-generational activities so that families can spend time together and participate in a range of planned activities. Details of what is on offer is published each half-term and an on-site crèche is now in place so that younger siblings who are not of school

age can be cared for in a safe and stimulating environment. Regular attendees benefit by having access to wider opportunities. With help from the National Lottery and City West Housing Trust, adults can access training and qualifications, voluntary opportunities and mentoring so that they can increase knowledge, build important life skills, gain employment or change careers. Kickstart Education coordinate these opportunities and a number of parents have already completed Paediatric First Aid, Parenting Workshops and Childcare Qualifications. Kickstart Education is very much community led and parents and carers have a voice to shape the activities and qualifications on offer so don't hesitate to contact Mrs Kiernan and register your interest to get involved in this fantastic and unique project.

For further information please school on 0161 789 2598

Kind Regards

Dean M Khaled
