

### **The School Sport Premium**

It became statutory for Governing Bodies to monitor how P.E and sport funding was being used to improve the quality of provision and the impact it was having. This new responsibility, highlighted in Ofsted Guidance and brought to the attention of the Governors by the Head has been prioritised as we felt that we could improve provision. Sport Premium has provided an ideal opportunity to develop links with other schools, external agencies and to fully engage with pupils and parents through the medium of sport.

The Governors are keen to promote the school's successes and effectively promote Sport Premium spend. They have a calendar of events and are asked to check the school website and newsletters for the latest achievements. They then have the opportunity to send messages of congratulations to the children. P.E is a weekly subject on Friday News to raise the profile of P.E and regularly inform parents of achievements. As a further development, P.E awards will be made at the end of each term to a child from each class who has significantly improved their P.E skills and attitude.

To provide the best possible PE tuition, the school employs a variety of specialist coaches through Sports Development. In addition to class P.E lessons, all KS2 pupils are given the opportunity to compete against their peers on Friday afternoons; we belong to a football and netball league; we attend a number of inter school tournaments including tag rugby, lacrosse, bench ball, football (boys, girls and mixed teams), cricket, athletics and golf. All children have the opportunity to take part in Zumba sessions. P.E clubs are now available to pupils on at least 4 days after school.

These developments have significantly raised expectations and aspirations. We are keen to fulfil our role in developing our pupils' healthy lifestyles.

Future Aims:

All children love P.E.

All children can access the sports they want.

All children are healthy and fit and enjoy being active.
