TAKE A TOUR OF  
OUR SCHOOL!

**Working hard on my fine motor skills**

Practice makes perfect!

**Working hard on my fine motor skills**

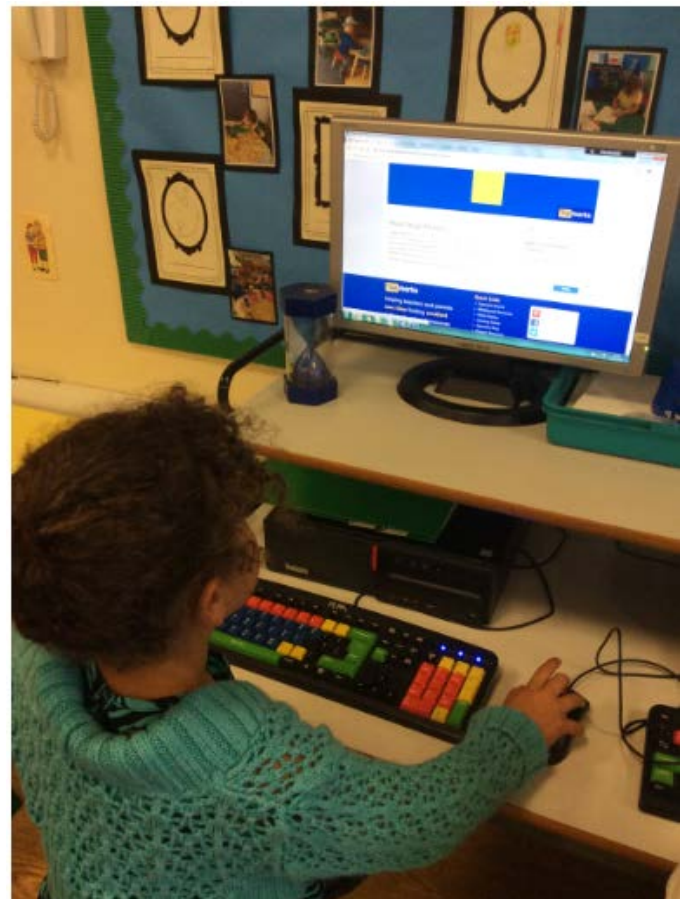

All our pupils take their writing seriously, working hard to practise their skills.

Pupils working hard in our suite.

All pupils are taught E-Safety as part of every session.

We integrate IT into all our subject areas using a range of programs - Times Tables Rockstars is our favourite!

We use the local area to inform our Geography learning.

Our local area has a rich history. The Bridgewater canal is part of our industrial heritage.

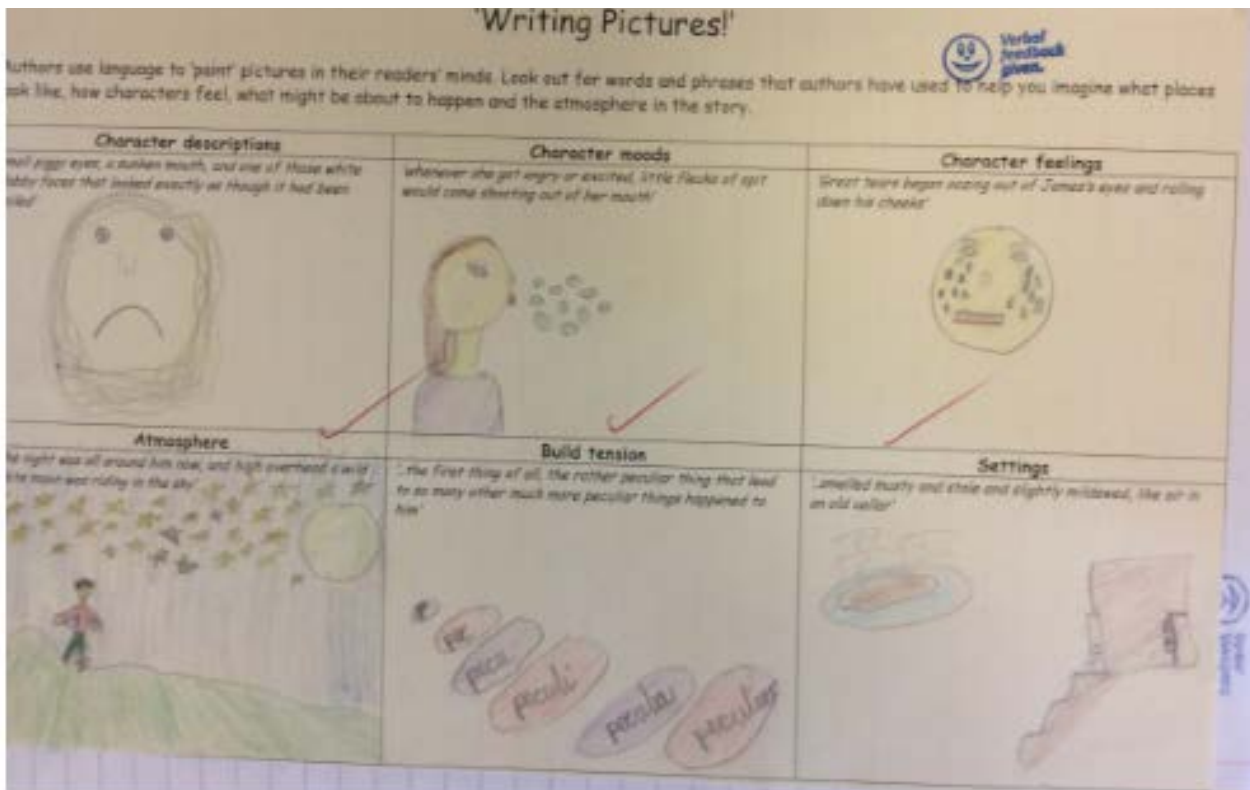

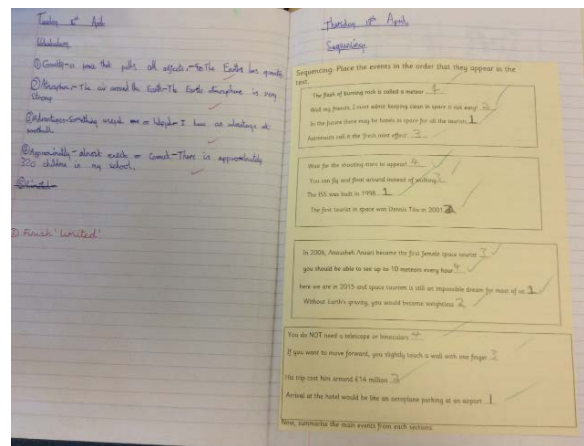

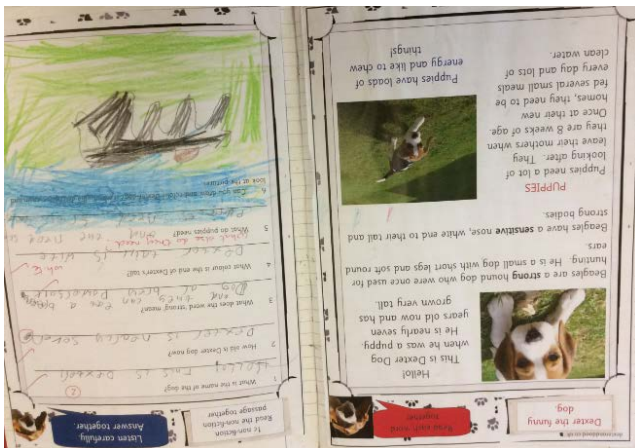

Pupils love to step back in time...

Diversity is a key part of our school life.

We love to learn about different cultures. Here we are learning to do an Indian dance.

# Pupils quickly learn to work independently.

...and of course everyone loves a visit from their pets.

*We had an amazing Pet Day!*

Maths is often practical and investigative.

Pupils work hard to learn their basic skills.

Later they will become Maths experts with excellent mental recall.

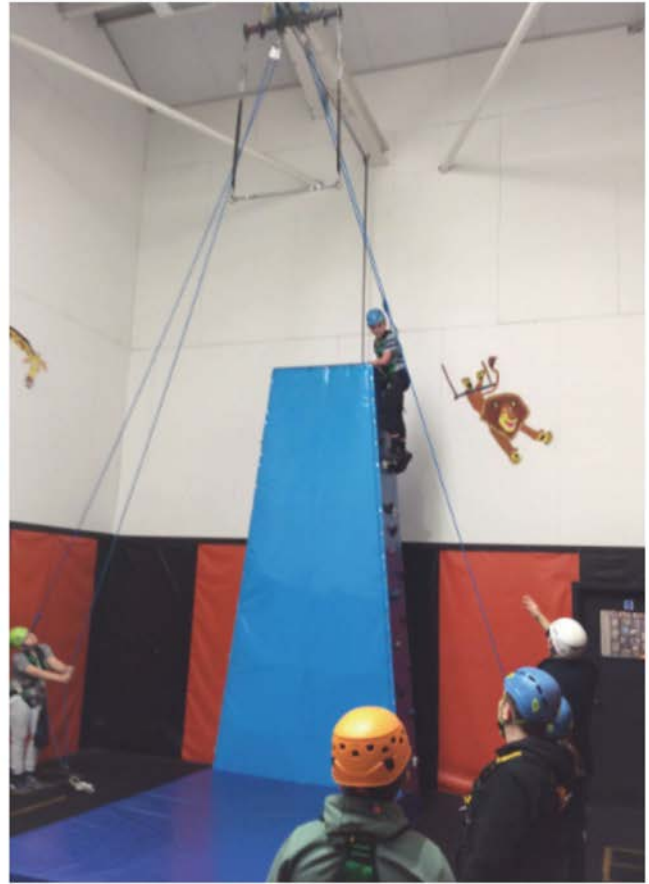

The arts are a vital part of our learning. Here are Year 1 and 2 learning to play the violin.

We work with you to help your child overcome their fears and reach their potential.

Staff are always available to answer questions.

Dream, believe, achieve, together.
